TERM AND CONDITIONS

1. GENERAL

- 1.1. These terms and conditions are formulated for the fair and proper adjustment of all questions concerning the Interchange and use of, repairs to and settlement for Equipment when such Equipment is interchanged.

2. INTERCHANGE OF EQUIPMENT BETWEEN USER AND A THIRD PARTY

- 2.1. If User relinquishes possession of the Equipment to a third party, the User will be responsible for the performance of all terms of this agreement in the same manner as if the Equipment were in the possession of the User.

3. RECEIPTS AND REPORTS

- 3.1. At the time of Interchange authorized representatives of the Owner and User shall execute, in multiple copies as the parties may require, an Equipment Interchange Receipt and Safety Inspection Report, and the parties shall be bound by the notations thereon.

4. USE OF EQUIPMENT

- 4.1. The User shall complete properly and expeditiously the use for which the Equipment has been interchanged, and shall return the Equipment to the location indicated on the delivery/CY release instructions, unless otherwise agreed upon in writing. Failure of the User to return Equipment to the location as designated by the Owner, will result in charges for actual costs with a minimum of \$100 (one hundred U.S. dollars) invoiced to the User for redelivery of the Equipment. The Equipment shall be returned in the same condition as received, ordinary wear and tear excluded.
- 4.2. The User shall have complete control and supervision of the Equipment while in its possession and the Owner shall have no right to control the detail of the work of any employee or agent operating or using the Equipment during such time. Any person operating, in possession of, or using the Equipment after Interchange to the User, and until such time Equipment is returned to the Owner, shall not be deemed the agent or employee of the Owner for any purpose whatsoever, nor shall User have any authority, expressed or implied, to bind the Owner in any circumstances whatsoever.
- 4.3. The User shall not sublease or Interchange Equipment to any third party without the written consent of the Owner, and then only to the extent of such written permission. The User shall be responsible for the performance of this agreement and use charges until the equipment is returned to Owner. - 4.4. All dunnage, debris, etc., shall be removed prior to Interchange of empty Equipment. In the event User returns empty container with hazardous placards still attached, Owner will assess U.S. \$150.00 (one hundred fifty U.S. dollars) removal fee.
- 4.5. The User agrees that Equipment received under this Agreement shall be operated in conformity with all governmental statutes, rules and regulations, and further agrees to indemnify and hold harmless the Owner for any violations resulting from the User's failure to comply with these statutes, rules or regulations, whether or not such violation is intentional.

5. DAMAGE, REPAIRS AND BILLING

- 5.1. In the event Equipment is damaged after being received in Interchange, the User shall promptly repair the Equipment. In the event User is not capable to make the required repairs, the User will, nevertheless, be responsible for the cost thereof.
- 5.2. In the event repairs are necessitated by defective Equipment, or occasioned by ordinary use, the User MUST obtain the consent of the Owner if the User shall make such repairs as may be necessary. The cost of such repairs will be:

 - 5.2.2. The costs for any repairs performed without prior consent of the Owner will be absorbed by the User.

- 5.3. In the event User delivers Equipment to a third party not a party to this agreement, the User will be responsible to the Owner for damage to the Equipment.
- 5.4. All repairs will be billed to the responsible party within 90 days after repairs have been completed, unless otherwise agreed upon. Billing must include Owner's mark or alpha code and container number(s), date(s) and location(s) where repaired, and all relevant details concerning items of repair.
- 5.5. Materials used in making repairs shall be billed at the invoice price. However, when repairs are made in commercial shops or outside service facilities, the actual amount invoiced for such materials and labor may be used. Labor shall be charged on the basis of actual time consumed in making repairs, but shall not exceed prevailing labor cost.
- 5.6. All repairs must maintain the Owner's Equipment standards, and the materials applied must be of same quality and type. Repairs are subject to Owner's approval. When repairs or replacements fail to meet Owner's standards, the User will be responsible for the cost of correcting inadequate repairs and replacing substandard materials.
- 5.7. Equipment repaired or serviced under terms of this Agreement shall be identified to the Owner at the time of redelivery, and so noted on the Equipment Interchange Receipt executed at the time of return.

6. SETTLEMENT FOR LOST, STOLEN OR TOTALLY DESTROYED EQUIPMENT

- 6.1. In the event that any Equipment is lost, stolen, destroyed or damaged so as to be rendered incapable of further use (hereinafter referred to collectively as "loss") while said Equipment is in the possession, custody or control of User, or third party to whom the equipment has been sub-leased or interchanged, User agrees to reimburse Owner for the Depreciated Replacement Value, as set forth in the Owner's master lease agreement.
- 6.2. Unless Owner directs otherwise, the User is responsible for returning all Equipment, whether damaged or not. User will protect the Equipment from any further damage.
